

TEMPLETON

MELBOURNE, AUSTRALIA

Mission Statement

For 40 years, we have grown with a clear understanding of who we are, and what we want to achieve.

We are high performing, academically focused and inclusive of our international community of cultures.

We are focused on Literacy and Numeracy, in an environment where students learn their best.

We are balanced by immersing our students in a broad and diverse curriculum, so students can release their talents in many and varied ways.

We endeavour to develop independent learners to become well-balanced citizens.

And although we are growing and changing, we are still leading the way.
